ABOUT ME

Creative web developer with experience in building, optimizing and maintaining the performance of user centric websites. Clear understanding of modern technologies and best design practices. An ambitious problem solver willing to join a team of like-minded people.

WORK EXPERIENCE

Associate Software Developer

Dec 2023 - Current

Hcode Technologies

As a dedicated professional, I excel in constructing, enhancing, and streamlining web and mobile applications for esteemed organizations. I have honed my proficiency in the **MERN stack** and **React Native** to an expert level. Leading a dynamic team, I ensure the timely delivery of exceptional results.

Full Stack Web Developer

May 2023 - Oct 2023

Pixy Square

Responsible for building maintaining and optimizing web applications for reputed companies. Polished my **MERN** stack skills to expert level and lead the team to deliver the results within the stipulated period of time. Good interpersonal & communication skills to deal and meet with the **client's requirements**.

Backend Developer (Team Head)

Nov 2022 - May 2023

Duckcart

Lead the team of 12 members and maintained main server(AWS) of the company. Added numerous features like Payment Gateways, Notifications, International currency conversion. Played an important role in the development of new Startup website. Learnt important tools like **Slack, Jira, Notion** etc.
